2.14. Significant activities and contribution made by IQAC

Following Suggestions made by IQAC were complied

General Suggestions

- LCDs to be used regularly.
- Teachers to give the topic in advance so that students can come prepared to class. This enables good interaction in the classroom and make learning interesting.
- Encourage students to ask questions especially introvert students.
- T.Y.projects to be designed to acquire skills relevant to life and the society that will enable students to become employable.
- Teachers to talk to students beyond the syllabus and the subject to inculcate value system.
- Mentors to make efforts to evolve a peer mentor amongst the mentees. Peer mentor is a link between mentor and mentees.

Specific Actions taken by the Conveners/HoDs

- Give wide publicity to about opportunities at NIO.
- Install fire wall to prevent students from using unhealthy websites.
- Acquire software to demonstrate dissection.
- The hygiene and quality in the College canteen has to be improved.
- Fans have been replaced/repared.
- A list of Non-conventional Value-added courses to be displayed.

7.3 Give two Best Practices of the institution : See Annexure

1. Personality Enhancement Programme
2. Outreach Programme.

7.4 Contribution to environmental awareness / protection

The natural environment encompasses the interaction of all living species.

Our College has always taken an initiative to promote environmental consciousness among the staff and students as well as in the society. The location of our College is in the capital city and we have limited free space. Care has been taken to create greenery in the college by planting trees and colourful flowering plants. We also have green house and a well maintained Botanical Garden. Open spaces have been covered by pavers and lawns.

- **Energy conservation:** The college classrooms are naturally well lit and ventilated. So fans and lights are used judiciously.
- **Use of renewable energy:** T.Y.B.Sc. Physics students have constructed solar charge controller and solar panel which is used in the campus for lighting. This is an initial step to use renewable energy.
- We have started drip irrigation in the College.
- **Checkdam construction:** Ground water retention is enhanced by covering open spaces by pavers and lawn.
- **Efforts for Carbon neutrality and Plantation:** Annually NCC and NSS students undertake tree plantations in the College premises.
- **Hazardous waste management:** Old chemicals and hazardous chemicals are disposed according to the procedures prescribed by the Pollution Control Board, Government of Goa.
- **E-waste management:** e-waste such as old computers, UPS is sent for re-cycling through proper procedures.

Other eco friendly activities include :

- **Vermi-Composting:** It is a green manure processed by earthworms from the organic waste which otherwise creates pollution. A Vermi-compositing pit which can take care of fallen leaves, vegetable waste and fruit waste is built in the campus. Special variety of earthworms provided by ICAR, is used for this process. It takes about a month to convert waste to manure. This manure is used for plants in the college garden. Being chemical free it has the advantage of keeping good soil texture. To popularize this method, training programmes are organized in the college by ICAR scientists for staff and students. College has vermin-composting pit.
- Used paper in the college is sent for recycling.
- NSS volunteers collect empty milk packets and pet bottles and the same is sent to plastic collection centres. These students also make paper bags from used papers to create awareness against usage of plastics.
- Annual Beach cleaning drive has been conducted by NSS Unit.

Mentoring Report (Arts)

The main objectives of the Mentoring programme are to initiate students into the culture and values of our Institution and to provide support in academic and social aspects of college life. Therefore mentors help students develop meaningful relationships, set goals, and develop action plans to achieve these goals.

Nineteen mentors (Arts) took part in the programme and each mentored an average of 20 students. A total of 392 arts students benefitted from the Mentoring programme. During Open Day when parents were invited to interact with teachers the examination mark sheets were distributed by the mentors to their mentees. This enabled them to provide additional support/mentoring as required.

Mentoring Report (Science)

The counseling and mentoring committee was formed and around twenty members from various departments were assigned with ten students each for an effective mentoring. The twenty members selected were for F.Y.B.Sc. and S.Y.B.Sc. classes. The respective project guides were assigned the T.Y.B.Sc. mentorship.

The forms were distributed to the mentors which had the details about each student with respect to their class, email id, occupation of parents, hobbies, their future prospects, etc. The mentors were briefed about their course of action during the academic year.

A parent mentor meeting along with the mentee was organized when the results of Semester I and Semester III were distributed. The results and the overall performance of the mentee were discussed with the parent.
