In this two years of this Minor Research Project I had completed all chapter related to my topic which I included in my research work. In the first chapter ‘पूर्वारंभ’ I have introduced the status of women in society and their importance. I tried to put up my point in favour the status of women in society from ancient period to 21st century. To clear my point in this view I gave the example of women revolution from end of 19th century & explained the status of women in India in my second chapter. My third and fourth chapter based on Hindi & Konkani novels, where I gave a examples of various novels from both languages and try to criticise according to my view. In fourth chapter only I gave a history of Konkani novels so it make easy to compare with Hindi literature and fifth chapter consist the comparative study of women’s image in both literature and finally I concluded my research work with my conclusion.
