

**Dhempe College of Arts and Science, Miramar, Panaji, Goa**  
**Mentoring Programme**  
**2018-2019**

**Objective:**

To provide each student with a teacher mentor who provides support in academic and other aspects of college life and helps students to set goals and develop action plans to achieve these goals.

**Report:**

The number of mentors in the Arts section was 26; while the Science section had 37 mentors. Every student of the college was assigned a mentor, preferably a teacher currently teaching the mentee. This was done since feedback from the participants indicated that it was easier to build rapport and to meet the mentees if they were in their class.

The first meeting of the year was conducted on 02/08/18 at 11.00 am. 36 mentors participated in the meeting. New staff members were briefed regarding the mentoring process and all mentors were given the list of mentees and mentoring reports to be filled in; as records, and for follow up.

The second meeting was conducted on 16/04/19 at 11.00 am in the seminar hall. 62 mentors participated in the meeting. Mentors were asked to submit their mentoring files to Dr. Miskil Naik (Science) and Dr. W. Manuel (Arts) for their perusal. The same is to be returned and records to be kept by the respective departments.

**Outcome**

Every student of our college has a teacher to mentor her/him regarding all aspects of college life and to help her/him set goals and action plans to achieve these goals.
